

INTEGRITY™ COLLABORATION AND COMMUNICATION TOOLS

Innovative, Easy to Use Applications

Summary

INTEGRITY Collaboration and Communication Tools is the premier solution for teachers and/or students to communicate safely with peers via a manageable e-mail and collaboration solution; collaborate and share information and materials with our Internet file sharing feature and secure instant messaging; share knowledge on messaging board; share calendars; read your mail from your Palm or Pocket PC; publish personal web pages or daily homework; and post and maintain web pages easily and securely with our web hosting service. These services are fully manageable by a school administrator and are customizable to represent your individual school or district.

INTEGRITY Collaboration and Communication Tools offers effective, flexible, scalable, and cost conscious solutions to K12 and is E-rate eligible.

Collaboration

INTEGRITY makes collaboration easy by adopting an unified approach: virtually every kind of information can be **shared**. For example you can share a file folder with your curriculum group, or share a message board with your team. It is an easy way to keep everyone updated, and to enable online discussions regarding a project.

In the same way you can setup and share a project calendar, so that everyone is aware of the schedules, meeting times, etc.

Homework Posting

INTEGRITY Communication Tool let you post daily homework, and share information on the web.

Message Board

Users can post message for other to see and reply to. Whether you need to build a 'knowledge repository' , or participate in an on-going discussion, INTEGRITY message board is the preferred way to communicate.

Online File Storage

INTEGRITY Online let you store all your documents in your account. In this way you can access them from any location, and you can share them with other users.

Being able to access your files from any location means that your don't need to carry disks with you wherever you go, and that you don't need to copy all your documents to your PDA in advance. You access what you need directly when you need it.

Web Hosting

INTEGRITY hosting is a managed web hosting solution for your school or district. By using an off-site web host you eliminate the need to worry about software updates and server maintenance. Our high-speed raid servers and redundant data and power sources ensure your web site and e-mail are always available.

- Technical Support
- Stability
- No Licensing
- No Maintenance
- E-Rate Eligible
- Dedicated Servers
- MySQL Databases
- Multiple Domains and Subdomains
- Supports PHP, Perl, CGI, Frontpage

INTEGRITY Collaboration and Communication Tools are fully supported by an expert staff with a blend of educational, managerial, and technological experiences. Our talented and dedicated staff will guide you through the implementation process and assure your success by being available to support your specific needs.

Most of INTEGRITY Collaboration and Communication Tools can be accessed by mobile devices.

The Southeastern Regional Education Service Center (SERESC) was formed in 1974 when 14 school districts pooled their resources to support special education students being mainstreamed into public schools for the first time. SERESC was created and remains a non-profit entity managed by a Board of Directors comprised of School Board Members and Superintendents of Schools.

SERESC is an agency known for its services and collaborations with education, business, local and federal governments. These partnerships enable SERESC to provide quality services to its schools and a professional development center where both educators and business professionals gather to work, learn and be inspired.
